RECENT EMERGENCE OF SCIENCE AND TECHNOLOGY TO PREVENT THE ENVIRONMENTAL CRISIS OF EPIDEMIC NATURE.

RESURGEN

It is a great pleasure to inform you that, before the backdrop of an unforeseen pandemic crisis, we have determined to explore the unputdownable nature of human and are going to organise an International online Seminar in a virtual mode under the auspices of

**REGENT EDUCATION AND
RESEARCH FOUNDATION**

Objective of the seminar

To bring to light the updated knowledge based on a common platform to encounter scientifically the prevalent Environmental crisis presently manifested as an Epidemic diseases.

Date of the seminar

13th June, 2020

Benefits and outcomes of the seminar

The human life is now utterly horrified and alarmingly set in a tight corner due to the prevalent deadly COVID - 19 disease. Globally, the social human beings have been compelled to imbibe Social - Distancing culture among them. But inherently the human nature is mesmeric. With these in view, an online common platform in a virtual mode has been framed through this Seminar; where Scientists and Technologists will share their valuable updated knowledge and Research findings among them to pave the way for prescribing a sound remedy against this contagious disease and to purify the Environment to bring it back to its original safest form.
